MICHAEL LAVALLEE

Front End Developer

Profile

Hello, I am a web designer in Worcester Massachusetts with a passion for front end development. Dedicated and reliable, I thrive to master more languages and tools to hone my craft. I strive to achieve nothing but perfection with creative problem solving to amaze anyone who sees my work. Whether I am working on a team or individually, my communication and interpersonal skills hold their value.

Experience

Oct – Present **Contract WordPress Developer**
 2020 Accl Marketing

- Used Elementor, WPBakery, and SEO mangament.
- Had creative input with development.
- Weekly standups.
- Completly remote.

Jun – Aug **Web Developer**
 2020 Shattered Journal Games / G2 Sports Cards

- Designed and hardcoded frontend websites.
- Created templates so the client can update their website.
- Created wireframes and multiple differnt layouts.
- Kept strong contact and communication with clients

May – Aug **Summer Innovation Program**
 2020 Mass DiGI

- Created and designed UI illustrations and took feedback from outside sources.
- Worked completely remote and kept strong communication with my team.

Jan – Sep **Information Technology**
 2017 Uxbridge High School

- Repaired old or broken iPads and MacBooks.
- Designed daily slideshows that would be broadcasted.

Education
